

BUSINESS VOICE SERVICES

PRI and SIP Trunking

Why use separate vendors for voice and data? Alpheus does it all. Save time and money with integrated voice, data and Internet services without the hassle of managing multiple vendors and connections. Alpheus voice services are delivered over our private IP network where voice traffic is segmented and prioritized to ensure enterprise-class quality of service (QoS) and the reliability you demand for your mission-critical communications.

Our voice services provide the capacity, call quality, and enhanced telephone features your business requires, all with the benefit of a lower monthly bill. We offer customizable service bundles to fit your business needs, backed by the assurance of our highly reliable and continually monitored network.

Leverage Alpheus' VOICE SERVICES to:

- **Bundle and save** on monthly telecommunications expenses.
- **Simplify your telecommunications management** and create cost savings by combining voice, video, and data traffic with SIP Trunking.
- **Improve efficiency** with teleconferencing and hunt group features.

Features:

- **PRI features include:**
 - Caller ID with name and number
 - Directory listing
 - Unlimited local calling
 - Long distance calling packages
- **SIP Trunking features include:**
 - Private IP routing
 - Unlimited local and long distance calling

The Alpheus ADVANTAGE:

- **Scalability:** Easily add or subtract capacity as your calling needs change.
- **Customization:** We offer a host of optional services (LD packages, DID, toll-free numbers, vFAX, telebranch operators services, etc.) to tailor a voice package to your business needs.
- **Unmatched reliability:** Our fully redundant network architecture, monitored by our own network operations center (NOC), enables uptime performance that is required for enterprise-grade voice services.
- **Professional support:** Our team is on call 24/7 to answer your questions and resolve any issues with the urgency your business deserves.
