

DEDICATED INTERNET ACCESS

Dependable Bandwidth for Business

Like cars sharing a road, traditional Internet connections share a pipe with other users. You never know when you might hit gridlock. Dedicated Internet Access is like having your own private highway – always available, and always fast. If your company has no tolerance for slow-downs or outages, a dedicated service is right for you.

It's always on, and always fast. The only thing that might surprise you is Alpheus' high level of service. Our fully redundant core network is second-to-none in reliability, and backed by our 24/7 network monitoring and customer support teams.

Leverage Alpheus' DEDICATED INTERNET ACCESS to:

- Establish an extremely reliable, high-speed connection from your company LAN to the Internet.
- Avoid unexpected network delays that could disrupt business performance.
- Alleviate IP address depletion as Alpheus supports both IPv4 and IPv6 addressing.

The Alpheus ADVANTAGE:

- **Fast provisioning:** Order Dedicated Internet Access and be online within days.
- **Scalability:** Upgrade easily with bandwidth options from 1Mbps to 10Gbps.
- **Sophisticated capabilities:** Optional Border Gateway Protocol (BGP) offers faster and more efficient routing between networks.
- **Flexibility:** Choose from interface options including T1, DS3, OCn, Ethernet, Managed Optical Wavelength, and wireless access.
- **Unmatched reliability:** Our fully redundant network architecture, monitored by our own network operations center (NOC), enables uptime performance that exceeds 99.999%.
- **Professional support:** Our team is on call 24/7 to answer your questions and resolve any issues with the urgency your business deserves.
